

Alright, real talk and deep appreciation coming at ya. We are so grateful for @zaksbuilding for building our dream shop in 2 days. Don't be fooled by their fast work, every single step of the process was seamless and no detail was missed.

The Decision

Our friends and neighbours had recently built what we call the "mansion" and they couldn't say enough about Zak's. We got a tour of their big build and we were sold! We inquired in May and were surprised the cost was less than we thought! We got our estimated build date and then two days in October... while we were at work, our whole property changed. Now everything is out of the elements, organized and covered by security. It's so nice having the space indoors for our lifestyle. Everyone at Zak's was great to deal with and they always went the extra mile... then- a kick ass Christmas present arrives, hand delivered in December! Thanks for the heated, Bluetooth chair and flashlight (this 🔦 thing is so good we joke we can see deer skeletons when we use it at night to chase wildlife away from the horse feed).

Zak's... look them 

Your Decision

Zak's builds big and small and they will come to you! What do you wish you could change with your home or business...? It's so easy (and free) just to ask. Why not know?

THANK YOU AGAIN for our shop, we truly love every detail and will keep singing it from the rooftops.

— Mitch and Jessie
